

Session 1: Mr. Surapong Laoha-unya

Presentation entitled: Roles and Benefits of Mass Transit System to Sustainable Development of Bangkok: The SKYTRAIN Experiences

Biographic Data of Speaker

Mr. Surapong Laoha-Unya
Director / Chief Operating Officer

Brief information of the BTS SkyTrain where Mr. Surapong Laoha-Unya has been affiliating for quite sometimes since its establishment.

BTS is operated by Bangkok Mass Transit System Public Company Limited (BTSC), with issued capital of 21,036 Million Baht and total registered capital of 10,058 Million Baht. BTSC operates one of the safest and most punctual mass transit systems in the region, and plays a crucial role in helping to ease Bangkok's notorious traffic jams while providing an environmentally friendly transport alternative for Bangkok's commuters. The BTS SkyTrain currently records over 450,000 passenger-trips

Led by a skilled and experienced management team and cooperation of all BTS Staffs, the BTSC has worked hard to achieve international standards of safety, service and quality including:

- 📌 ISO 9001:2000 Certification from the Management System Certification Institute (Thailand)
- 📌 OHSAS 18001:2007
- 📌 Safety Management System Certification from Llyod's Register International (Thailand) Limited
